

DEFENDA™

ADVANCED SUPERYACHT FENDERS

Superyacht Style

DEFENDA products outperform competitors, coming in stronger and lighter, adding stylish protection to superyacht topsides.

World Class

With a string of world firsts to our name - including the only SUSTAINABLE fender covers – DEFENDA offer cutting edge superyacht fender technology.

We put every product through its paces, testing weather exposure, UV resistance, strength and recyclability so you won't have to replace, fix, or waste. Leading the way in the design and manufacture of exceptional, functional and resilient fenders and accessories.

"Love the fenders - been through a pretty harsh test on Day 1; the boat was tied to a commercial tug in choppy water. Not a scratch on them. There is no way I could lift and handle normal fenders of that size. Thumbs up!"

First Mate, M/Y Destiny

The Toughest Superyacht Fender

- ✓ Built to last - Military grade fabric
- ✓ Superlight - easy to handle
- ✓ Resists the ravages of UV, grit & salt water
- ✓ Guaranteed leak free – molecular bonded seams
- ✓ 10 Year Guarantee (longest in the industry)

- ✓ Reduces to 10% inflated size
- ✓ Standard & custom sizes
- ✓ Any colour, as long as it's BLACK

"Fenders are perfect! I will be singing your praises from the highest rooftop!"

First Officer, M/Y Nuri

Our Hybrid Fenders

FENDABOARD

Durable and lightweight, our FendaBoards are the “peace of mind” alternative to wooden planks, giving superyachts added protection when moored alongside concrete walls or rusty pilings.

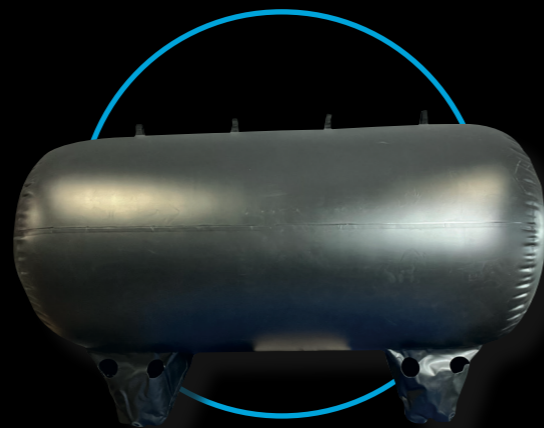

- ✓ Standard & custom sizes
- ✓ Designed for lines to run through and around for snug fit
- ✓ Studs withstand hours of abrasion
- ✓ Reduces to 10% inflated size
- ✓ Stab-proof fabric
- ✓ Strong webbing loops for secure attachment

TENDAFENDA

TendaFenda floats along the waterline, allowing tenders and PWCs to moor alongside without scuffing. We've included premium webbing attachment points at either end and along the top, plus water ballast bags underneath for added stability; to help crew out when launching (& managing) tenders or toys.

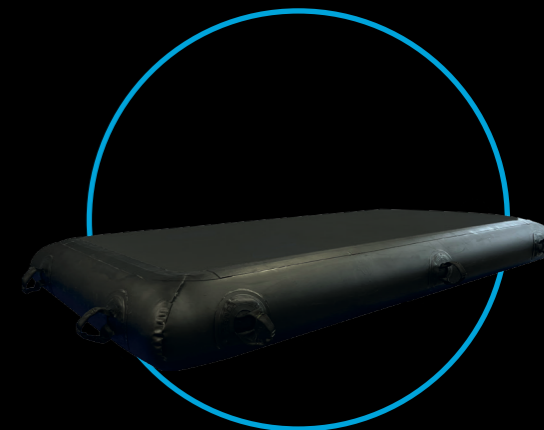

- ✓ Built to last - Military grade fabric
- ✓ Superlight - easy to handle
- ✓ Resists the ravages of UV, grit & salt water
- ✓ Standard & custom sizes
- ✓ Linkable for added flexibility

FLATFENDA

Just like its name suggests, this is our flat inflatable solution, manufactured to give years of service. Ideal for tight spaces or to prevent swim platforms and tender garages getting bumped.

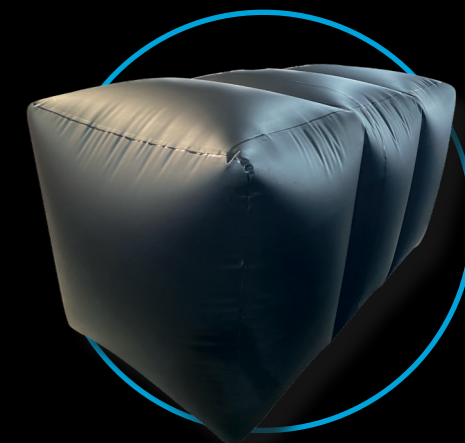

- ✓ Rigid, robust & versatile
- ✓ Premium drop-stitch fabric
- ✓ Available in 20 & 30cm depth
- ✓ Standard & custom sizes
- ✓ Low volume for easy storage

FENDACUBE

Perfect for high performance foiling yachts. This innovative, rigid inflatable cuboid is lightweight and compact once deflated.

- ✓ Built to last – Military grade fabric
- ✓ Multiple attachment points
- ✓ Doubles as walking platform
- ✓ Standard & custom sizes
- ✓ Reduces to 10% inflated size

Fendaskin - The World's ONLY Sustainable Fender cover

- ✓ 100% Bioprene (rubber & seashell compound)
- ✓ Suited to sun & salt water – lab tested, fade-resistant outer
- ✓ Saving 100's of tons of unrecyclable material headed to landfill
- ✓ Water Revolution Foundation Partner– sustainability in superyachting
- ✓ 2 Year NO FADE Guarantee

"The Bioprene covers look fantastic!"

Captain, M/Y Aurora

Proud to be a Water Revolution Foundation Partner

By continuously testing materials and developing recycling initiatives we've demonstrated our commitment to the sustainable agenda. Proud to be environmentally conscious and collaborate with key stakeholders to effect rapid, lasting change in the superyacht industry.

"Joining the revolution for an environmentally responsible future."
Simon Billington, Defenda CEO

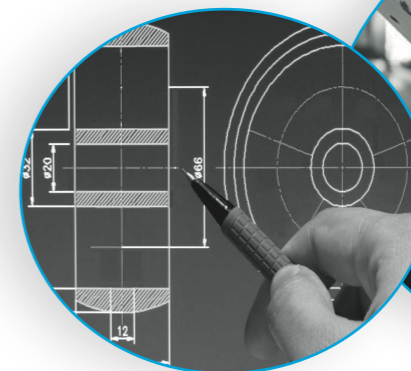

Corporate partner

Defenda - protecting topsides since 2011

Our expert team have been quietly innovating the world's most technologically advanced range of superyacht fenders since 2011, with accessories to suit.

"Defenda performing really well, and the deck guys enjoy them because they fold up a lot smaller than other fenders we have."

Captain, 60m M/Y

Accessories

We stock a wide range of mooring accessories, including:

ELECTRIC INFLATORS For super-quick inflation of fenders, RIBs & other inflatables

FENDER BRIDLE Linking fender lines to larger fenders, suited to extreme load

FENDER HOOKS Built for strength, in a wide variety of finishes

FENDER LINES Braid-on-braid polyester for strength. Diameter and length to suit

CHAFE GUARDS Highest quality marine leather, to prevent fender lines rubbing paintwork

FENDER SWIVELS High performance ball raced aluminium swivels

SUCTION CLEATS For temporary attachment of fenders, platforms or tenders
